What is VPI Shoreham?

Delivering reliable electricity, VPI Shoreham is one of the most efficient plants of its kind. Online since 2000, VPI's Shoreham plant provides 460MW of electricity. The combined cycle gas system uses a single GE/Alstom GT26 turbine and ABB steam turbine and generator.

Is VPI Ireland's largest battery energy storage operator?

The 200MW of battery energy storage at the Lumcloon and Shannonbridge sites, commissioned in 2021, will establish VPI as Ireland's largest battery energy storage operator. Battery storage is recognised as critical infrastructure for Ireland's energy transition as they strive to hit ambitious 2030 targets.

How will VPI support the decarbonisation of Irish energy?

With the acquisition of two existing battery storage facilities west of Dublin, VPI have taken the first step in supporting the on-going decarbonisation of Irish energy. The 200MW of battery energy storage at the Lumcloon and Shannonbridge sites, commissioned in 2021, will establish VPI as Ireland's largest battery energy storage operator.

How will VPI support Ireland's green energy transition?

Acquiring two 100MW battery energy storage systems, VPI plans to accelerate support of Ireland's green energy transition. With the acquisition of two existing battery storage facilities west of Dublin, VPI have taken the first step in supporting the on-going decarbonisation of Irish energy.

Who is VPI Blackburn?

VPI Blackburn has been reliably supplying a major industrial region with power since 2002. With commercial operations starting in 2002, VPI Blackburn has continued the power generation legacy of the region, providing vital power supply to northwest England's manufacturing area.

Does VPI Damhead Creek use air cooled condenser?

While providing flexible and reliable power generation to meet demand, VPI Damhead Creek uses an air cooled condenser, has low water usage and discharge, and limits emissions to air. VPI Blackburn has been reliably supplying a major industrial region with power since 2002.

As part of the pre-qualification process for the Capacity Market as a Limited Liability Partnership, VPI confirms the following are representatives of the members of VPI Immingham LLP. Jorge Pikunic, Chief Executive Officer of VPI; Adam White, Director of Trading and Optimisation at VPI

As one of the largest facilities of its kind in Europe, VPI's Immingham combined heat and power (CHP) plant is capable of producing enough flexible power to meet the needs of over one million homes, while providing electricity and steam to local sites including our Humber Zero partners at the Phillips 66 Humber Refinery.
