

# Icelandic solar container tender

What is legal tender in Iceland?

A total of five denominations of notes and five denominations of coins are valid as legal tender in Iceland. The following legal tender is valid in Iceland: Notes to the value of 10000, 5000, 2000, 1000 and 500 kr., and coin to the value of 100, 50, 10, 5 and 1 kr. The notes were designed by Kristinn Þorkeldsson, with Stephen A. Fairbairn.

When does a public tender start and end?

A procurement shall begin with the publication of a notice and end when a tender is selected. The tender period can be assumed to be over two months. A public tender must be advertised prominently so that all interested companies can participate in the tender during the tender period.

How should a public tender be advertised?

A public tender must be advertised prominently so that all interested companies can participate in the tender during the tender period. This shall also apply to open procedures for framework agreements. At the same time, certain parties may also be encouraged to participate in pre-selection or the invitation to tender.
