

# Industrial park network solar container jobs

How many solar panel installers are there?

Due to the energy transition there is a strong demand for solar panel installers. In 2014 there were less than 6,000 full-time jobs in the solar industry. By 2020, the number of jobs had already grown to almost 25,000. Coolblue alone is already looking for 1,000 installers since they decided to not only deliver the panels but also install them.

What can I do with a paid internship at solar?

While on paid internships at Solar, you will gain valuable experience in an international organization and learn about applications such as IES Validation system, SAP Vendor Invoice Management (VIM), Excel.
