Who is Integral Energy Services?

Integral Energy Services is a pioneering group of companies focused on supporting the future of clean energy and critical infrastructure. With roots in the nuclear sector, we have expanded into wind and renewable construction, and are looking to further expand our suite of offerings.

What is Integral Electrical Solutions?

Integral Electrical Solutions is a company committed to meeting all clients' needs from concept through to completion and beyond with their highest quality services. They are proud of their strong social and environmental ethos, always looking to source locally through their vetted supply chain of materials and labor.

What is Integral Solutions?

Integral Solutions is a firm that offers open source enterprise software services to small and medium companies. The company had a public issue two years ago and has shown significant growth in the current financial year. Integral Solutions is a firm, not a person.

Boyne Capital and Breakwater North have formed Integral Energy Services to combine the pair's investments in clean energy and infrastructure services. Integral Energy Services (IES) is comprised of Sonic Systems, International Wind, and Amperion that together employ more than 1,000 technicians serving four clean energy verticals: nuclear ...
