

Adex Group Ltd., the first regional energy exchange for Central and South-Eastern Europe (CSEE), was established on December 23, 2022, in Ljubljana. Its founding members are transmission system operators of Slovenia and Serbia - ELES and Elektromreza Srbije (EMS), respectively, EPEX SPOT and the two TSOs' wholly-owned subsidiaries BSP ...

Three electricity exchanges in the region started operating in the first two months of 2016, IBEX (Bulgaria) on 20 January, CROPEX (Croatia) on 11 February and SEEPEX (Serbia) on 17 February. On HUPX, CROPEX and IBEX, the trading platform is day ahead (DAM) and within the day (ID), while SEEPEX offers the option for DAM trade.

Serbian power exchange that was opened in February should lower the price of kilowatt on open market. Unlike households that buy electricity from EPS at unique price, industry signs separate contracts with suppliers.

Slovenian and Serbian transmission system operators (TSOs) ELES and Elektromreza Srbije (EMS), and EPEX SPOT have signed an agreement to establish the first regional power exchange for Central and ...
