

Ivory Coast contel smart energy

With a connectivity solution that is built to support coverage in both dense urban and sparse rural areas, communities in the Ivory Coast will use technology and data to drive efficiencies, improve sustainability, and enhance the quality of life for citizens.

Contel Smart Energy provides an advanced control and optimization hardware and software platform used to maximize the value of energy generation and storage facilities in coordination with the local power grid.

Contel Smart Energy, part of the Contel Technologies Group, leverages a robust combination of industry-leading toolset for supervisory control and data acquisition (SCADA), artificial intelligence and advanced optimization to make Microgrid operations and EV Fleet management smarter, better, and more efficient.

SMART ENERGY représente un groupement d'industriels spécialisés des solutions d'efficacité énergétique. Nous mettons en œuvre différents dispositifs, procédés et programmes permettant aux entreprises d'améliorer leur efficacité énergétique.

The Ivory Coast Electricity Company (CIE), a leader in its field in Africa, had a stand. The company wanted to highlight their competitive edge, demonstrating their policies of energy efficiency, and the creation of Smart Energy.

The grant is awarded within the framework of the Promotion of Access, Smart Grids and Solar Energy project (Paris). Launched by the Ivorian government in 2019, this project covering the whole of Ivory Coast should make it possible to increase investment in the energy sector through two components, including the one devoted to rural ...

Ivory Coast demonstrates a strong commitment to sustainability through various smart cities initiatives. For example, the adoption of smart grids and renewable energy solutions helps reduce the carbon footprint. Furthermore, the implementation of smart water management systems optimizes water usage and conserves resources.

Smart meters and data gleaned from AI are proving invaluable tools for Côte d'Ivoire as the country continues to power towards providing universal electricity access for its people and industries. With a 92% access rate at present, the West African country has, over the past 13 years, connected thousands of citizens to the electricity grid.

Beyond Energy | Contel Smart Energy, a subsidiary of Contel Technologies, aims to revolutionize the way

Ivory Coast contel smart energy

energy asset owners control and monitor their energy generation sites.
