

Kosovo akku grain

What is akkugrain?

AkkuGrain is the first protective agent specially developed for the transportation and storage of lithium-ion batteries. Made from purely organic components, AkkuGrain only reacts in the event of a thermal runaway. Curious? Ask your questions here! When heat is released, the components of the AkkuGrain bind toxic and flammable gases.

Is akkugrain a combustible material?

AkkuGrain is officially certified and patented as a non-combustible material. AkkuGrain ensures a temperature reduction in the event of a thermal runaway due to its composition. Due to its low specific density, AkkuGrain is light, approx. half the weight of sand

How does akkugrain suffocate a fire?

Ask your questions here! When heat is released, the components of the AkkuGrain bind toxic and flammable gases. At the same time, the source of the fire is cooled down so that the fire cannot spread further inside or outside the load carrier. In addition, the oxygen is displaced from the charge carrier, which suffocates the fire.

Can akkugrain be reused?

AkkuGrain can be reused as often as desired after transport without thermal runaway. AkkuGrain is available in different bag sizes and as bulk material. As a manufacturer, we offer you complete solutions for the transportation of lithium-ion batteries.

Why is akkugrain a non flammable filling material?

Due to its low specific density, AkkuGrain is light, approx. half the weight of sand. Components of the AkkuGrain provide filtering of toxic and flammable gases. AkkuGrain is officially classified and approved as a non-flammable filling material. AkkuGrain can be reused as often as desired after transport without thermal runaway.

What can akkugrain do for You?

AkkuGrain is available in different bag sizes and as bulk material. As a manufacturer, we offer you complete solutions for the transportation of lithium-ion batteries. At your request, we can also develop individual solutions for lithium-ion batteries, regardless of whether they are new, defective or critically damaged.

Kosovo akku grain

about the fire caused by a lithium-battery igniting and seriously damaging Alide Hire Service's flagship Bristol depot is what measures hirers might adopt to prevent similar occurrences.

AkkuGrain, Dolav's solution for the legal and safe handling and storage of Lithium-Ion Batteries. This is becoming more and more prominent within the battery recycling market as Lithium-Ion batteries become a major force within the industry. Dolav is now supplying UN certified HDPE Dolav pallet boxes for CAT I and CAT II Lithium-Ion Batteries with our...

Fire-absorbing chemical products; fire retardant chemical products; fire extinguishing agents; fire retardants; chemical compounds for packaging electronic parts, accumulators, batteries; filling material, namely, chemical compounds for packaging electronic parts, accumulators, batteries

UN-Zertifizierte Gesamtlösungen. Wir bieten Ihnen als Hersteller zudem Gesamtlösungen für den Transport von Lithium-Ionen-Batterien. Auf Ihren Wunsch erarbeiten wir für Sie auch individual Lösungen für Lithium-Ionen ...

AkkuGrain®; - The Solution. When heat is released, the components of the AkkuGrain®; bind toxic and flammable gases. At the same time, the source of the fire is cooled down so that the fire cannot spread further inside or outside the load carrier.

AkkuGrain for handling lithium-ion batteries 10 January 2023 An obvious question raised by the recent story about the fire caused by a lithium-battery igniting and seriously damaging Alide Hire Service's flagship Bristol ...

UN-Zertifizierte Gesamtlösungen. Wir bieten Ihnen als Hersteller zudem Gesamtlösungen für den Transport von Lithium-Ionen-Batterien. Auf Ihren Wunsch erarbeiten wir für Sie auch individual Lösungen für Lithium-Ionen-Batterien: ganz gleich ob sich diese im neu, defekt und kritisch defektem Zustand befinden.

AkkuGrain®; ist das erste Schutzmittel speziell entwickelt für den Transport und die Lagerung von Lithium-Ionen-Batterien. Hergestellt aus rein organischen Be...

AkkuGrain, Dolav's solution for the legal and safe handling and storage of Lithium-Ion Batteries. This is becoming more and more prominent within the battery recycling market as Lithium-Ion batteries become a major ...

This plastic transport box is suitable for the transport of batteries up to 19kWh. The internal volume must be filled to at least 80%. Comes equipped with 100L of AkkuGrain®; granules integrated into the doubled-sided walls. AkkuGrain®; helps to combat toxic and flammable gases while keeping temperatures down to avoid fu
