

HiNa focuses on low-cost, long-life, high-safety and high-energy density Na-ion battery products. The potential applications cover low-speed electric vehicles, large-scale energy storage, electric vehicles, and national security. The company also supplies cathode and anode materials and electrolytes for sodium ion batteries.

4 &#0183; Kosovo has launched two auctions for BESS projects with a cumulative capacity of 170 MW/340 MWh. The 45 MW/90 MWh and 125 MW/250 MWh battery storage procurement exercises are initiated by the United States ...

5 &#0183; This follows CATL announcing the completion of its second-generation sodium-ion battery in November 2024. This technology can discharge reliably at temperatures as low as -40&#176;C and is scheduled for commercial launch in ...

4 &#0183; Kosovo has launched two auctions for BESS projects with a cumulative capacity of 170 MW/340 MWh. The 45 MW/90 MWh and 125 MW/250 MWh battery storage procurement exercises are initiated by the United States acting through Millennium Challenge Corp. (MCC) and Kosovo authorities. In 2022, MMC approved a \$202 million grant for these projects.

5 &#0183; This follows CATL announcing the completion of its second-generation sodium-ion battery in November 2024. This technology can discharge reliably at temperatures as low as -40&#176;C and is scheduled for commercial launch in 2025. ... HiNa Battery has planned a range of sodium-ion batteries, including a 270Ah prismatic cell, an 80Ah blade cell, and ...

HiNa Battery Technology Co., Ltd is a new high-tech enterprise, concentrating on the R& D and production of the new generation energy storage system-Na-ion batteries. Since 2011, the R& D team has been worked for developing the technology of low-cost, safe and environmentally friendly, high-performance sodium ion battery.

HiNa Battery Technology Co., Ltd., with a focus on low-cost but high-performance sodium-ion batteries, is China's first high-tech enterprise dedicated to the development and manufacturing ...

HiNa Battery Technology Co., Ltd., with a focus on low-cost but high-performance sodium-ion batteries, is China's first high-tech enterprise dedicated to the development and manufacturing of sodium-ion batteries.

HiNa Battery Technology Co., Ltd is a new high-tech enterprise, concentrating on the R& D and production of the new generation energy storage system-Na-ion batteries. Since 2011, the ...

Discover Hina Battery, the world's only company specializing in the mass production of sodium ion batteries. As a leader in advanced energy solutions, we offer cutting-edge sodium ion batteries for grid-scale energy storage and power applications. Explore our innovative technology and join us in shaping the future of energy storage.
