

Kyrgyzstan tbea co ltd

Why did Kyrgyzstan choose TBEA?

In 2013 the Government of Kyrgyzstan chose TBEA to reconstruct a power plant, a choice made after heavy pressure from the Government of China. Rigged bidding and inflated prices are alleged to cost Kyrgyzstan \$111 million, and have led to former Prime Minister Sapar Isakov, among other officials, being charged with corruption.

What does TBEA do?

TBEA has developed into a leading enterprise in the world power transmission and transformation industry, China's new polysilicon material development and large-scale aluminum electronics export base, large-scale solar photovoltaic and wind power system integrators, multiple manufacturing industrial parks in China, and two bases overseas.

Who is TBEA Energy?

The Indian division is registered under the name TBEA Energy (India) Pvt Ltd and will cater to India, African, Middle East and other markets. The company builds transformers and also develops transmission lines as an EPC contractor.

What does TBEA stand for?

TBEA Co., Ltd., previously known as Tebian Electric Apparatus, is a Chinese manufacturer of power transformers and other electrical equipment, and a developer of transmission projects. Along with competitors Tianwei Baobian Electric (TWBB) and the XD Group, it is one of the major Chinese manufacturers of transformers.

Where is TBEA based?

Outside of China, TBEA is also coming up with a manufacturing base for transformers, solar equipments & cables in Karjan Gujarat, India. The Indian division is registered under the name TBEA Energy (India) Pvt Ltd and will cater to India, African, Middle East and other markets.

How much power does TBEA produce a year?

The annual output of transformers reaches 260 million kVA, ranking first in the world, and the total PV EPC ranks first in the world. TBEA's comprehensive strength ranks 228 among the world's top 500 machinery companies, 6 among the top 100 Chinese machinery companies, and 80 among ENR's international general contractors.
