

Liechtenstein delta energy solutions

How do Liechtenstein municipalities get the Energy City label?

Liechtenstein municipalities can obtain the Energy City label if they continuously ensure efficient energy use, increase investments for renewables, including solar energy, wind energy and hydropower, and promote environmentally compatible mobility. The certificate is awarded by the Energy City Sponsoring Association.

What power products does Delta offer?

Delta offers some of the most energy efficient power products in the industry, including switching power supplies with efficiency over 90%, telecom power with up to 98%, and PV inverters with up to 99.2% efficiency. We have also developed the world's first server power supply certified as 80 Plus Titanium.

What does Delta do?

Delta, founded in 1971, is a global provider of power and thermal management solutions. Its mission statement, "To provide innovative, clean and energy-efficient solutions for a better tomorrow," focuses on addressing key environmental issues such as global climate change.

What makes Delta Group unique?

As a gateway to Asia, India, Australia and Europe markets, Delta Group synergizes advanced technologies and ultra-efficient production between European and Asian subsidiaries to power our innovation and competitiveness.

Why is Liechtenstein a good place to live?

For instance, the Principality has the world's largest share of photovoltaics per capita. Furthermore, Liechtenstein is also an important role model regarding sustainable energy policy. In 2003, the municipality of Triesen was the first to join the Energy City Association. Triesen was certified as an Energy City one year later.

What is Delta capacity?

Delta Capacity focuses on providing battery energy solutions to grid flexibility, dedicated to providing cutting edge battery technologies and software solutions. Whether Greenfield or industrial sites, our team at Delta Capacity is actively developing BESS projects across all of our active markets.

Goal: We want to be a leader and play part in providing renewable energy. Stable and predictable power production leads to a stable and predictable supply of energy and therefore to a stable and predictable stream of income, which is ...

These solutions include solar inverters for residential rooftops, commercial and industrial rooftops, and megawatt-level solar plant applications with up to 98.8 efficiency and cloud monitoring ...

Liechtenstein delta energy solutions

These solutions include solar inverters for residential rooftops, commercial and industrial rooftops, and megawatt-level solar plant applications with up to 98.8 efficiency and cloud monitoring platform. Delta energy storage solutions control and regulate power so ...

Explore how multi-application infrastructure is powered by Delta's energy-efficient and innovative solutions, making your business more competitive and sustainable through smarter and greener technologies.

Delta Group has 176 sales offices, 38 plant sites, and 75 R& D centers, with over 9,000 R& D engineers throughout the world As a gateway to Asia, India, Australia and Europe markets, ...
