

Lightleaf solar panel Mongolia

Rigid Overlay Composite (ROC(TM)) technology brings you the world's first solar panels that are lightweight, rigid, and tough. We design each panel to meet every user's needs and provide functionality far beyond raw power. From custom deployable hardware to rail-mounted quick-release systems, these panels will improve your life on the go.

A rigid and lightweight fixed mount solar to power any mobile project. gLeaf is the perfect addition to any project -- use it as the roof of a micro-camper, the lid of a storage box, anything you can imagine.

Despite being landlocked in Saskatchewan, LightLeaf Solar Designs emerged, catering primarily to the U.S. market with CE-compliant products ready to expand into the EU. Based in Saskatoon, LightLeaf Solar produces carbon fiber rigid panels designed for rugged, off-grid adventures.

A single 110W solar panel can produce approximately 600 W-hrs of electricity during a single, central North-American, sunny day. It can produce the power required for a small trailer, including lighting, device charging, a compression-style refrigerator, and miscellaneous loads.

Manufacturer of solar panels intended to offer custom-designed solar products. The company offers lightweight, rigid, and scratch-resistant structural solar panels that can be molded to any shape, enabling customers to get solar panels that are designed to seamlessly integrate with trailers, sailboats, vehicles, and more.
