

Lion solar solutions Tonga

The commissioning of the Niuatoputapu Solar Hybrid System & Mini Grid is a significant milestone for Tonga. It brings the country's total electricity accessibility to around 99%. The project will also help to reduce Tonga's reliance on imported fossil fuels, which will benefit the environment and the economy.

As a leading engineering and consultancy firm in the solar industry, founded in 2022, Lion Solar plays a vital role in supporting investors, contractors, and creditors in delivering...

Founded in 2022, Lion Solar Solutions is a leading Engineering and Consultancy Agency in the Solar Industry, dedicated to helping renewable energy professionals sustain business processes and achieve their goals as a trusted solution partner.

Lion Solar Solutions specializes in designing and obtaining approval for various Enerjisi Sistemi (GES) projects. Our team is fortified with SMM electrical engineers, offering unparalleled expertise to deliver cutting-edge solar energy solutions.

Whether you're looking to design a new solar energy system or optimize an existing installation, Lion Solar Solutions is your trusted partner. Contact us today to learn more about how we can help you achieve your solar energy goals with our proven expertise and innovative solutions.

Lion Solar Solutions is a consultancy firm specializing in engineering and planning services for the solar industry, providing expert solutions to renewable energy professionals and investors. The company uses software such as PV*SOL and AutoCAD to design and plan solar projects.

Lion Solar Solutions is dedicated to filling the knowledge and expertise gap in the solar industry. Our approach is technology-driven, quality-focused, and timely, ensuring that all parties involved in solar projects - now and in the future - have the support they need to succeed.
