Novus Earth, based in Alberta, is a company dedicated to providing sustainable renewable energy solutions for real-world problems. They focus on decarbonizing for a brighter tomorrow by offering clean baseload power through closed-loop geothermal systems that are scalable and environmentally friendly.

The company harnesses geothermal energy to produce renewable baseload power and heat and provides a zero-carbon energy remedy to cost-effectively grow food through vertical aquaponics, enabling industries to utilize decarbonized technologies that enable sustainable stewardship of the earth's resources.
