

Maldives solar panel 2kva system

Assessing low energy, viable water and waste management solutions; including recycling plastics, waste to energy plants and solar desalination for applications in the Maldives

The project marks the largest solar panel installation in the Maldives by a single contractor to date - which will generate 5MW solar power per day. As per Environment Ministry, 7.3 million power units will be generated annually through this system - which will cut down fuel costs by the state on electricity production by MVR 15 million to ...

Avi Technologies is a company dedicated for electrical engineering related services. Our main specialities are solar PV Systems, uninterruptible power supplies and other renewable energy services.

As a trusted solar panel company in Maldives, we manufacture and supply premium-grade solar panels that harness the power of the sun to generate clean and sustainable energy. Our panels are designed to withstand diverse weather conditions and deliver optimal performance, ensuring maximum energy generation for your specific requirements.

List of Maldivian solar panel installers - showing companies in Maldives that undertake solar panel installation, including rooftop and standalone solar systems.

The project offers both single-phase and three-phase systems of 3 and 5 kilowatts, with prices set at MVR 45,000 for a 3 kW system and MVR 75,000 for a 5 kW system. Residents may choose to pay the full amount upfront or opt for an instalment plan spanning five years, with monthly payments included in the electricity bill.

Providing Maldives resorts a full solar power solution, Atoll Solar ensures you reap the maximum return from your solar energy investment. From installation to maintenance, our trained and certified team is committed to make solar power a seamless process for your property.
