Who is ESY sunhome?

Founded in 2004, China's ESY Sunhome started out manufacturing batteries for small devices, then expanded into a supplier of Battery Management Systems (BMS). In 2021, the firm launched its first home energy storage solution. ESY Sunhome has a 12,000m<sup>2</sup> facility in Shenzhen, China and boasts 800 engineers and assembly line staff.

Why should you choose ESY Sunhouse?

At ESY SUNHOME, we don't just offer products - we offer energy solutions designed to simplify your life and empower your future. Choose ESY SUNHOME for dependable, scalable, and innovative energy storage systems that are built to last. Founded in 2004, ESY SUNHOME has established as a key player in the battery and renewable energy industries.

Does ESY sunhome HM6 have a warranty?

The HM6 is accompanied by a 10 year\*performance\*warranty. ESY Sunhome warrants the HM6 will either retain at least 70% of its original storage capacity, or achieve minimum throughput energy - which varies with the model. For example the minimum throughput energy for a 5.12 kWh system is 21.5MWh. For a 30.72kWh system, it's 129MWh.

How does ESY sunhome monitor a battery?

Monitoring is via the ESY Sunhome App, which the firm says also allows for complete control over the battery's operational status. The app leverages the power of AI to provide "real-time" solutions by considering factors such as user electricity consumption, weather conditions and electricity prices.

What are ESY Sunhouse's core values?

The German team sets a shining example of one of ESY SUNHOME's core values: unity and perseverance. This core value is threaded throughout the company, including our Australian team and headquarters members. They always remember their initial purpose, working tirelessly to bring more warmth and care to their customers.

Can a sunhome battery be charged during a blackout?

The battery has an IP66 ingress rating. Rated output power in backup mode (all models) is 6kW. It's not clear if the battery can be charged during a blackout with a home's solar power system. Monitoring is via the ESY Sunhome App, which the firm says also allows for complete control over the battery's operational status.
