What is a Franklin whole home battery?

The Franklin Whole Home Battery (FHP) is a multifaceted energy control system capable of integrating the grid, home solar generation, backup batteries and even generators, which can all be managed with ease in a mobile app.

Is the Franklin home power system a legitimate 'whole home' backup system?

In 2022, FranklinWH unveiled its flagship product - the Franklin Home Power (FHP) system - and immediately piqued the interest of installers and homeowners searching for a legitimate "whole home" backup solution. In this article, we'll put the FranklinWH Home Power system under the microscope, focusing especially on:

Is Franklin home power a good battery system?

In AC-coupled battery systems like Franklin Home Power, efficiency tops out at around 90% because the current has to be inverted on its way into the battery and on its way out. With that in mind, the aPower's round-trip efficiency of 89% is on par with its peers. The FHP system can operate in three different modes.

Should you buy a Franklin whole home power?

Pair your home solar system with a reliable backup battery like the Franklin Whole Home Power, a match made in heaven when it comes to assuring that you're always backed up, no matter the circumstance. With affordable options for you and your family, achieve power security and energy independence for good.

Are Franklin batteries compatible with other energy products?

Being fully compatible with other energy products like solar panels and even backup generators, the Franklin battery is a one-stop shop for all of your family's home energy needs.

How does Franklin home power work?

Franklin Home Power integrates solar, grid, battery storage, and generator, to maximize your solar ROI and increase energy efficiency. You can monitor and manage home energy generation and consumption in real time through the FranklinWH App.

The Franklin Home Power (FHP) system goes beyond just providing safe and reliable backup power. It optimises daily household energy management, offering complete home energy independence. The key components of FHP are the aPower battery (SKU: aPower X-01-AU), the aGate intelligent controller, and the FranklinWH App.

FHP integrates and connects solar, grid, battery, generator and electrical loads (EV charger, air conditioner, etc.) to create a complete energy system that is efficient and powerful, and allows you to effectively control your energy production and consumption.

Vehicle-to-Loads (V2L) technology integrates your electric vehicle (EV) into the home backup system, allowing you to use EV battery energy to power your home. Future-forward integration for smarter, more flexible home energy control.

In 2022, FranklinWH unveiled its flagship product - the Franklin Home Power (FHP) system - and immediately piqued the interest of installers and homeowners searching for a legitimate "whole home" backup solution.

Recently installed the Franklin WH battery system (aGate + 2 batteries). What is best for battery longevity: Self-consumption mode or Emergency Backup? Emergency backup: Keeps batteries at 100% and fully ready in the event of an unexpected outage.

The Franklin Whole Home Battery (FHP) is a multifaceted energy control system capable of integrating the grid, home solar generation, backup batteries and even generators, which can all be managed with ease in a mobile app.

FranklinWH solution is an open and robust home energy ecosystem that integrates solar, battery, grid, generator and EV power sources, providing power backup during outages, peak periods, or even when you want to be off-grid 24/7.

FHP integrates and connects solar, grid, battery, generator and electrical loads (EV charger, air conditioner, etc.) to create a complete energy system that is efficient and powerful, and allows you to effectively control your energy ...
