

National energy solutions Barbados

What is the Barbados national energy policy (BNEP)?

This Barbados National Energy Policy (BNEP) document is designed to achieve the 100% renewable energy and carbon neutral island- state transformational goals by 2030. These include: Provision of reliable, safe, affordable, sustainable, modern and climate friendly energy services to all residents and visitors.

Does Barbados need a BNEP?

The BNEP provides a basis for building on these successes while seeking to expand the use of these and other renewable energy technologies such as wind and biofuels. However, even as Barbados promotes the development of renewable energy, there are ongoing plans to explore for fossil fuel resources offshore.

Why is energy conservation important in Barbados?

Providing Value To Barbados Through Ongoing Product Updates And Ongoing Innovation. Energy conservation is not just a buzzword; it's a responsible way of life. By reducing your energy consumption, you're contributing to a healthier planet. It's a win-win solution that benefits both you and the environment!

Why should Barbados invest in the energy sector?

The energy sector in Barbados should be invested in to foster development, promote energy security, reliability, affordability, and establish and maintain a sustainable sector. This can be achieved through innovation and workable partnerships which promote a strong economy and a healthy environment.

Is Barbados exploring for fossil fuel resources offshore?

Barbados is promoting the development of renewable energy, but there are ongoing plans to explore for fossil fuel resources offshore to maximize foreign exchange gains from any exploited hydrocarbons.

Why is solar water heating so popular in Barbados?

Indeed, the success of the solar water heating industry is a source of pride for the country, the recent development of the local solar photovoltaic (PV) industry and the burgeoning electric vehicle market in Barbados are also encouraging.

4 ¶ The Barbados National Energy Policy (BNEP) 2019-2030 outlines Barbados' central vision regarding energy policy and planning and is designed to achieve the country's transformational goal of becoming a 100% renewable energy ...
