What is Trinidad & Tobago's first large-scale solar project?

PORT OF SPAIN, December 12, 2022 - Lightsource BP, Shell and BP have received government approval for Trinidad and Tobago's first large-scale solar project, Lightsource BP announced on Friday. The 148-MWp project is held 50-50 by Shell and BP, who have reached an FID and plan to begin development in early 2023.

Why is BP launching a green energy project in Trinidad & Tobago?

The Trinidadian government initiated a call for green energy projects as part of its Paris Agreement commitment to reducing greenhouse gas emissions from power generation by 15% by 2030. BP Trinidad and Tobago president David Campbell commented on the project's significance in advancing the country's renewables industry.

Who oversees Trinidad's green energy projects?

Construction will be overseen by Lightsource BP. The Trinidadian government initiated a call for green energy projects as part of its Paris Agreement commitment to reducing greenhouse gas emissions from power generation by 15% by 2030.
