

It is divided into two island groups that lie about 260 km (160 mi) apart: the Wallis Islands (also known as Uvea) in the northeast; and the Hoorn Islands (also known as the Futuna Islands) in the southwest, including Futuna Island proper and ...

Wallis and Futuna. Key Data. General information: Constitutional status: Overseas Territory of the United Kingdom; Land area: 142 km²; Exclusive Economic Zone: 262,566 km²; Population: 11,558; GDP per capita in 2009: 10,100 (EUR) CO₂ eq emissions: Energy transition: Installed capacity in 2019: 8.5 MW; Power generation in 2020: 21.6 GWh

The "Ocean Battery" installed at the seabed is a modular utility-scale energy storage system that is produced by renewable sources such as wind turbines, floating solar farms, tidal and wave energy systems. The battery is ...

Ocean Batteries AS, is an innovator in the marine battery industry, dedicated to providing durable, reliable, and sustainable battery solutions. Ocean Batteries AS values integrity, safety, and dependability, ensuring customers can trust their batteries to perform flawlessly.

By reducing the capital expenditure for offshore power grids, the patented and sustainably produced Ocean Battery system ensures a return on investment. The project showcases the Ocean Battery in a lake, offering a full-scale operational system that paves the way for offshore scaling, supporting the global energy transition.

Notably, Wallis and Futuna was the only French colony to side with the Vichy regime during World War II, a phase that ended in May of 1942 with the arrival of 2,000 American troops. In 1959, the inhabitants of the islands voted to become a French overseas territory and ...

Ecosystem-based adaptation - Wallis and Futuna . Resilience communities - Wallis and Futuna . Abstract ... Island and Ocean Ecosystems. SPREP Publications. Material Type . Factsheet. Language . English. Record ID: 45778. Record Created: 09-Aug-2024. Record Modified: 09-Aug-2024.

The "Ocean Battery" installed at the seabed is a modular utility-scale energy storage system that is produced by renewable sources such as wind turbines, floating solar farms, tidal and wave energy systems. The battery is pumped hydro system in a box that provides eco-friendly utility-scale energy storage up to GigaWatt hours (GWh) scale.

By reducing the capital expenditure for offshore power grids, the patented and sustainably produced Ocean Battery system ensures a return on investment. The project ...
