What is Origis Services?

Origis Services is one of America's fastest growing solution providers. They are trusted by owners, managers, and developers to control costs, reduce risk, and optimize performance for solar farms and solar + energy storage projects across America.

Who is origis solar?

Origis has a track record originating in the early days of solar. Now one of America's leading renewable energy companies, we provide a range of clean energy and decarbonization solutions. The solar industry had all the components of the business I wanted to build next in my career.

Why should you choose Origis Services?

Origis Services is a trusted choice for several reasons, including clear contract terms, integrity, and depth of knowledge. Over 4 GWdc of utility-scale and distributed generation solar and over 1 GWh of energy storage projects have been entrusted to Origis Services.

Who owns origis?

Mr. Vanderhaegen founded Origis in 2008, in the early days of solar adoption in Europe. As he has done since the company's inception, he will continue to drive overall oversight and lead on innovation and strategy, working to ensure the Origis mission and vision is fulfilled.

Why did origis become a US company?

In 2012, after rapid expansion in the European market, Origis became a U.S. company, positioning it to contribute to the growing renewable energy market in America. As Chief Executive Officer & President, Mr. Vanderhaegen oversaw a growing team of clean energy professionals working out of three offices in the U.S.
