

Pakistan northvolt products

What makes Northvolt a good battery manufacturer?

Cell technology. For land, air and sea. A battery cell manufacturer at heart, we're working with three kinds of chemistry -- enabling us to deliver battery solutions for virtually every corner of electrification. A foundation to Northvolt's low-carbon footprint comes from a commitment to power battery manufacturing with 100% fossil-free energy.

Who is Northvolt AB?

Northvolt AB is a Swedish battery developer and manufacturer, specialising in lithium-ion technology for electric vehicles. Founded in 2015 by two former Tesla executives, it commissioned its first manufacturing plant in Skellefteå, Sweden in 2021 and has announced plans for five others in Europe and North America.

What makes Northvolt a low-carbon battery manufacturer?

A foundation to Northvolt's low-carbon footprint comes from a commitment to power battery manufacturing with 100% fossil-free energy. We're re-writing the playbook on what it means to be a battery manufacturer by adopting a wide spectrum of battery supply chain activities in-house. Going green isn't an optional extra at Northvolt. It's baseline.

Who owns Northvolt energy?

The company was founded as SGF Energy in 2015 by Peter Carlsson[sv](now CEO) and Paolo Cerruti (now CEO Northvolt North America) who were working in Supply Chain and Operations Planning at Tesla Motors prior to that. In 2017, the company changed its name to Northvolt.

Where is Northvolt located?

The headquarters of Northvolt are in Stockholm. Its center for research and development is situated in Västerås, Sweden. Northvolt Ett (swedish: "one") is a gigafactory located in Skellefteå, northern Sweden, with a goal output of 60GWh.

What makes Northvolt the world's greenest battery?

Join us! Sustainability A big contribution to Northvolt's low-carbon footprint comes from our commitment to power our factories with clean, renewable energy. Combine that with minimal resource use alongside battery recycling and you have the blueprint for the world's greenest battery. Recycling No battery lives forever.

Northvolt argues that its batteries are sourced directly from the miners and that it has cut through the middlemen in the supply chain, as we discussed. Can you shed some light on the main sources for the company's raw materials?
