What is the energy storage project in Kosovo?

On the other hand, Neshati noted that "The Energy Storage Project is the largest energy project in Kosovo in decades and the most significant Battery Energy Storage System (BESS) project in Europe (MW per capita)."

Does MCA Kosovo have a battery storage design & supervision kick-off meeting?

MCA Kosovo holds battery storage design & supervision kick-off meeting. MCA-Kosovo was thrilled to hold its inaugural kick-off meeting with the Battery Storage Design & Supervision consultancy.

Who owns the energy facilities in Kosovo?

Kosovo* will own the facilities, the ministry added. Economy minister Artane Rizvanolli said the program would back the independence of the national energy system and enable its transformation. The details will be made known after negotiations between the government and MCC, planned for May.

What is Kosovo's Energy Strategy?

The energy strategy foresees 170 MW in battery operating power. In addition, procedures are scheduled to be announced in the fourth quarter for a solar power plant of 100 MW for government-controlled power utility Kosovo Energy Corp. (KEK) and a solar thermal system for district heating in Prishtina, according to Rizvanolli.

How will MCA Kosovo & MCC start a green transition?

The project will introduce a state-of-the-art battery storage system and entails the largest energy investment in Kosovo during the last few decades. Through the BESS project, MCA Kosovo & MCC will kick-start Kosovo's green transition by laying the foundation through one of the largest energy storage projects in Europe.

How much will Kosovo's new solar power plant cost?

In addition, procedures are scheduled to be announced in the fourth quarter for a solar power plant of 100 MW for government-controlled power utility Kosovo Energy Corp. (KEK) and a solar thermal system for district heating in Prishtina, according to Rizvanolli. The contracts will have a combined value of EUR 180 million, she added.

4 · Kosovo has launched two auctions for BESS projects with a cumulative capacity of 170 MW/340 MWh. The 45 MW/90 MWh and 125 MW/250 MWh battery storage procurement exercises are initiated by the United States acting through Millennium Challenge Corp. (MCC) and Kosovo authorities. In 2022, MMC approved a \$202 million grant for these projects.

The Millennium Challenge Account (MCA) Kosovo has officially launched the pre-qualification process for the design and build of Utility-Scale Battery Energy Storage Systems (BESS) and Transmission Connection Infrastructure, Lot 1: 45MW/90MWh and Lot 2: 125MW/250MWh
