The full spectrum of solar energy is a far-reaching field. Phaesun focuses from the very start on off-grid photovoltaic and wind energy systems, a field in which it is an internationally operating expert with extensive project experience in all sub-sectors. Phaesun is mainly targeting the following application areas: Rural Electrification

Phaesun Quality Management: ISO 9000-2015 certified and recognised as Authorised Economic Operator (AEO-F) More than 550 projects in 82 countries for off-grid power supply; Largest B2B Off-Grid Square for off-grid solar components; Own research and innovation department; Establishment of the Off-Grid Experts Expo and Conference

The solar company Phaesun and the tech start-up Solar Cooling Engineering have been cooperating since 2018 and have jointly developed the SelfChill technology. Solar-powered cooling units are used to generate cold in a water-ice storage tank.
