

Pitcairn Islands soluna battery

What are Soluna solar batteries?

Soluna Solar Batteries. Soluna offers attractive and easy to use solar battery storage modules for homeowners and businesses in a wide bracket of storage capacities for any sized solar PV system.

What is a Soluna power bank?

Soluna power banks are designed to provide you and your family peace of mind in the event of a power outage. Our power detection system will sense outages in real-time. Download our catalog and get a deeper look at our battery banks. Most energy produced occurs mid day, while peak power usage happens in the morning and evenings.

Are Soluna batteries any good?

George and the Soluna team have been great to work with. We have been developing a few solutions together of the past few years and we have loved every minute of it. They have been terrific and their products are top notch. I have been extremely happy with the battery unit I received and its performance.

How long do Soluna batteries last?

Soluna 5kW and 10kW HV Battery Packs are both rated for more than 6000 charge/discharge cycles. This means that cycled once a day, they should last for more than 15 years. Charge/discharge current (max.)

How many solar modules can a Soluna HV pack connect?

The Soluna HV Pack series can connect up to 10 modules in series, with a combined capacity of 100kWh in the case of the 10kW module. The smaller 5kW battery pack can connect up to 12 modules in parallel, for a combined capacity of 60kWh or power storage. Speak with a member of our team and determine the type of solar that best suits your situation

Soluna's HV Pack 10K/15K is the pre-assembled High-voltage LiFePO₄ Lithium battery storage systems designed specifically for 3-phase homes and small businesses. Pairing with a compatible 3-ph HV hybrid inverter for flexible system design, daily storage and independent blackout protection across all three loads.
