

Poland gurin energy

What does Gurn energy do?

At Gurin Energy, we develop solar, wind and energy storage projects to support Asia's sustainable development journey. Jindo Green Solar, located in the south of the country, will become one of South Korea's largest solar power plants.

Who owns Gurn energy?

Gurin Energy is owned by its management team and Infratil Ltd, a listed infrastructure investment company with established renewable energy platforms in the United States, Europe and Australia and a development pipeline of over 30GW. Infratil Ltd is managed by Morrison, a global infrastructure investment company.

Why should you choose Gurn energy?

Asia is blessed with excellent solar radiation, a largely underutilised source of clean, carbon free energy. Gurin Energy works closely with local communities to ensure that projects are developed in harmony with their surroundings.

Does Gurn energy offer equal opportunities?

Gurin Energy is committed to a diverse, equitable and inclusive workplace, and we provide equal opportunities for employment.

Why is Gurn energy developing a battery energy storage system?

Gurin Energy is developing a pipeline of utility-scale battery energy storage system (BESS) projects to enable greater flexibility of the grid and support the increased use of renewable energy in Japan. The Capas Solar Power Project is a 38MW solar power plant located in Barangay Santa Lucia, Capas, Tarlac Province.

How much energy has been cut in Poland this year?

From January to mid-May this year, the curtailment affected more than 400 GWh of energy. That's as much as nearly half a million households consumed in that period", said Marcin Dusilo, senior analyst at Forum Energii and the author of the report "Energy Transition in Poland".

Gurin Energy is a renewable energy company headquartered in Singapore. We take effective action to move Asia to 100% renewable energy, with a mission to develop, own and operate enough solar, wind and storage solutions to power 10 million homes.
