

Convenções ratificadas por Portugal (atualizado em 01-12-2020) Convenção IMO 48; Convenção SOLAS 74; Protocolo SOLAS 78; Protocolo SOLAS 88; Convenção LOAD LINES 66; Protocolo LOAD LINES 88; Convenção TONNAGE 69; Convenção COLREG 72; Convenção CSC 72; Convenção STCW 78; Convenção STCW-F 95; Convenção SAR 79; Convenção IMSO ...

SOLAS-relevant activities developed in Portugal were/are mostly focused on: investigating the biogeochemical effects of atmospheric deposition; studying air-sea interfaces and fluxes of mass and energy; using Earth Observations and modelling

A Convenção Internacional para a Salvaguarda da Vida Humana no Mar (em inglês: Safety of Life at Sea - SOLAS, ou International Convention for the Safety of Life at Sea) é um tratado marítimo internacional que estabelece padrões mínimos de segurança na construção, equipamento e operação de navios mercantes. A convenção exige que os ...

International Convention for the Safety of Life at Sea (SOLAS) The SOLAS Convention embodies one of the three most important pillars of international instruments regulating matters relating to maritime safety and pollution prevention, the other two being the MARPOL Convention and the STCW Convention, and undoubtedly the most important ...

The main vessels are the SOLAS vessels which are subject to international safety conventions applied to merchant navy vessels. The number of SOLAS ships shown is the result of the sum of the ships in the Conventional Register with the ships in the second register (RINMAR - Madeira International Ship Register).

Portugal has taken appropriate action to implement international conventions to which it is a party including, where appropriate, adopting domestic legislation and promulgating regulations ...
