

Power Africa co za Dominican Republic

What is Power Africa?

It will help countries develop newly-discovered resources responsibly, build out power generation and transmission, and expand the reach of mini-grid and off-grid solutions. Today the President announced Power Africa, a new initiative to double access to power in sub-Saharan Africa.

What is Power Africa's transaction-centered approach?

Instead of taking years or even decades to create an enabling environment for energy sector investment, Power Africa's transaction-centered approach focuses on facilitating more effective and efficient energy project transactions while simultaneously driving policy reform.

How many people in Sub-Saharan Africa lack access to electricity?

Two out of three people in sub-Saharan Africa lack access to electricity. In 2013, Power Africa was launched, bringing together technical and legal experts, the private sector, and governments from around the world to work in partnership to increase the number of people with access to power.

Why should you choose Power Africa?

At Power Africa, our commitment to sustainable energy solutions is gaining attention across various platforms. From customer testimonials and blog features to radio interviews and TV appearances, we're making waves in the world of alternative energy.

What is the Power Africa model?

The Power Africa model is based on effective partnerships that link public and private sector goals and resources, and connect investors and entrepreneurs to business opportunities in sub-Saharan Africa.

How does Power Africa help bridging the financing gap?

Bridging the Financing Gap: Power Africa works through partners, including the U.S. International Development Finance Corporation, using tools such as credit guarantees and first-loss capital, to de-risk investments so that public and private investors can fund projects that drive more electricity generation and connections.

WHAT DOES IT MEAN TO POWER AFRICA? Ten years ago, the United States made a pledge to the people of sub-Saharan Africa: To end energy poverty for millions by 2030. An ambitious promise to turn more lights on in homes and businesses. To electrify hospitals and rural clinics. To energize entrepreneurship and economic growth. To Power Africa.
