

Power home solar phone number Estonia

Can you use solar panels in Estonia?

Estonia has a climate where snow and rain do not cause problems with solar panels. This rain will remove bird droppings and other debris. However, you must take care not to damage the panels by washing them. Snow will melt from the panels if they get enough sunlight. This way, you can generate electricity without spending much time cleaning them.

Why should you choose solar energy in Estonia?

This is exactly the reason why choosing solar energy will be the best possible choice. Common myths that say there is not enough sunshine in Estonia are not true. For example, solar systems efficiency can be easily compared with systems placed in Northern Germany.

Can solar panels be installed on a flat roof in Estonia?

In Estonia, most solar panel installations are installed on pitched roofs. Ideally, the panels should be installed at a 41 degree angle on the south side of the building. If they are installed to the north, the panels will not generate electricity. Alternatively, flat roofs may also be installed with solar panels.

Who sells electricity in Estonia?

In Estonia's electricity market, Eesti Energia is the largest seller with a 60% market share and owns the largest distribution network, representing 86% of the distribution market. The Estonian Competition Authority (ECA) regulates transmission and distribution rates, as well as connection charges. Electricity in 2020:

Who is the company Mysolar?

The main activity of the company is the sale and installation of solar panels. Company MySolar has been offering solar systems and project work for homeowners all over Estonia since 2015. The company is the sole representative of Italian and German panel brands in Estonia.

Is there enough sunshine in Estonia?

Common myths that say there is not enough sunshine in Estonia are not true. For example, solar systems efficiency can be easily compared with systems placed in Northern Germany. The fact that our climate is slightly cooler is an advantage over Germany's larger daily dose of sunshine.
