

Power solutions as Monaco

Can wave energy be industrialized in Monaco?

Didier Beynet, SBM Offshore Monaco Country Director also addressed the press " While continuous R&D basin tests have validated the feasibility of our wave energy technology, the step towards industrialization requires a prototype to be tested at sea, which will be connected to the electricity grid.

What is Monaco Energy Renouvelables?

To support Monaco's transition, the Prince's Government and Sociéte Monégasque de l'Électricité et du Gaz (SMEG) pooled their skills in 2017 to create Monaco Energies Renouvelables (M.E.R.), with the aim of giving Monaco 100% green electricity production capacity equivalent to the territory's consumption.

When did public lighting become Electric in Monaco?

Public lighting became electric and, on 23 December 1936, Louis II, Prince of Monaco, granted a 30-year concession to SMG, Sociéte Monégasque du Gaz, a newly-created subsidiary of CIG (Compagnie Industrielle du Gaz). All of Monaco's energy production was then provided by subsidiaries of French companies.
