Tesla's Powerwall 3 is a big step up from the Powerwall 2, but here's everything you should know about both Powerwall batteries to pick the right one for you.

The all new Tesla Powerwall 3, expected to land in the UK in September 2024, features an in-built Hybrid Inverter. Retaining industry-loved features such as its 13.5kWh usable storage capacity, whole home backup functionality and sleek, modern design from the Powerwall 2, Powerwall 3 is set to fly off of the shelves, much like its predecessor.

The Tesla Powerwall is a rechargeable lithium-ion battery stationary home energy storage product manufactured by Tesla Energy. The Powerwall stores electricity for solar self-consumption, time of use load shifting, and backup power .

Tesla Powerwall reduces your reliance on the grid by storing your solar energy for use when the sun isn't shining. Use Tesla Powerwall alone or combine it with other Tesla products to save money, reduce your carbon footprint and prepare your home for power outages.

Bulgaria's energy sector is at a critical juncture, with two main objectives shaping its direction: decarbonization and reducing reliance on Russian energy. Over the past year, Bulgaria has made considerable progress in expanding its renewable energy capacity, particularly in solar power.
