Discovered and fully appraised Kuda Tasi and Jahal Oil Fields with combined 22 MMbbl Gross 2C Contingent Resources; Multiple development concepts including proven FPSO tied to subsea wells

4 · The project specifically aims to switch Timor-Leste, Papua New Guinea, Samoa, and Vanuatu to renewable energy and reduce dependence on fossil fuel. Completed in Timor-Leste in December 2024, the installation of solar and solar lights in villages without running water or access to electricity has been funded by the Japanese government and seen 1,000 solar kits ...

Based on this World Bank data, universal access to modern forms of energy, a 2030 target of both Timor-Leste's Strategic Development Plan [45] and SDG 7, seems to have been achieved. However, the resultant provision of energy services appears less promising.

Greater Sunrise Project: Catalysing Timor-Leste's economic future. Timor-Leste is on the brink of significant economic transformation through the development of the Greater Sunrise project. Located approximately 231 kilometres from Beaço, this strategic initiative aims to harness substantial natural gas and condensate resources to fuel the ...

Timor-Leste has rapidly expanded electricity access to more than 83 per cent of the population but the country has yet to achieve energy security.¹ Consumer costs, even with government subsidy, remain high and outages are common. In addition, most of Timor-Leste's electricity is generated through costly and polluting diesel generators.

developing areas. Energy self-sufficiency has been defined as total primary energy production divided by total primary energy supply. Energy trade includes all commodities in Chapter 27 of the Harmonised System (HS). Capacity utilisation is calculated as annual generation divided by year-end capacity x 8,760h/year. Avoided

The proposed investment program will finance investments in Electricidade de Timor-Leste (EDTL) Timor-Leste's state-run electric utility) to improve electricity service reliability, expand access to modern energy services, and improve performance of EDTL's management, maintenance, and revenue-collection systems throughout Timor-Leste.

Ppc energy Timor-Leste

Project brief:PREDP piloted three types of renewable energy devices in rural areas of Timor-Leste, focusing on isolated villages. It aimed to understand the constraints and challenges in disseminating

4 · The project specifically aims to switch Timor-Leste, Papua New Guinea, Samoa, and Vanuatu to renewable energy and reduce dependence on fossil fuel. Completed in Timor-Leste in December 2024, the installation of ...
