

Saint Martin athos energy

How can EthosEnergy help you?

Whether you have a question about our services or capabilities, or how we can help you solve a challenge, we'd love to hear from you. What can we help you with today? EthosEnergy makes energy affordable, available and sustainable by supporting you through the complexity of business today and future transition.

What makes EthosEnergy unique?

A unique combination of partnership and service quality, backed by a track record of tailored solutions, for the power, oil & gas, industrial and aerospace markets. EthosEnergy operates in over 100 countries to consistently improve performance across the value chain.

How much does electricity cost in Saint Martin?

For Sint Maarten, the equivalent rates are roughly \$0.35/kWh. Like many islands, Saint Martin is highly dependent on imported fossil fuels, leaving it vulnerable to global oil price fluctuations that directly impact the cost of electricity.

What is EthosEnergy?

EthosEnergy operates in over 100 countries to consistently improve performance across the value chain. As a culturally diverse company we use values to bind us together, that common element that each and every one of us shares. We refer to these values as Our Ethos. Our Ethos is our foundation, the rock on which we built our company.

What is Sint Maarten's national energy policy?

renewable energy.¹⁰ The plan also emphasizes the need to raise awareness of energy conservation among individuals and businesses through communication campaigns. Sint Maarten developed a National Energy Policy (NEP) in 2014 that aims to mitigate the impact of energy use on the environment while reducing electricity tariffs.

What is our ethos?

We refer to these values as Our Ethos. Our Ethos is our foundation, the rock on which we built our company. It marks who we are and what we do, and even better, all five elements were selected and defined by our employees. We live and demonstrate Our Ethos with one another, with our customers and in our communities.

EDF Archipel Guadeloupe, represented by its regional director Marie-Line Bassette and its head of the Northern Islands department Pierre-Yves Gillot, presented the energy crisis in Saint-Martin last Wednesday. Electricity consumption, up 7% in the first half of 1, exceeds the capacity of an aging Galisbay power plant.

Clean energy on Saint Martin. The "Programmation Pluriannuelle de l'Énergie - PPE" is under progress. It will determine the different sources of energy according to French policy and regulations. Our PI
