Who is segensolar?

Welcome to SegenSolar! SegenSolar is your solar power specialist! As a European PV wholesaler, we can offer you a first-class portfolio of solar modules, inverters, battery storage systems, mounting systems, EV charging stations and accessories. You can plan and order your solar system at any time through our powerful online Customer Portal.

What products does segensolar offer?

Our wide portfolio offers you the right solution for almost any installation. At SegenSolar you can find an extensive range of first-class products including single-phase and three-phase inverters, solar modules, mounting systems and more. Discover the portal and become a SegenSolar customer today.

What is the segensolar customer portal?

On the SegenSolar Customer Portal, you're not only able to quickly and easily design your system, but also navigate and check product stock, compare prices and also access datasheets, brochures and warranties. On the Portal you can plan your complete PV system as well as check product availability and compare prices.

Where is the largest lithium-ion battery storage system in Bolivia?

The site in the municipality of Baures, Bolivia. Image: Cegasa. The largest lithium-ion battery storage system in Bolivia is nearing completion at a co-located solar PV site, with project partners including Jinko, SMA and battery storage provider Cegasa.

How can Bolivia improve energy production?

Bolivia continues to make efforts to upgrade the infrastructure needed for renewable energy production. The National Interconnected System (SIN), which the government has put in place, aims to improve the nation's capacity for producing electricity by building additional power plants, transmission lines and substations.
