Independent power producer (IPP) Ignite Power has recently announced that it will provide electricity to 2 million people in rural Sierra Leone through solar home kits. The project will require a \$50 million investment.

The home solar system kit currently use 64 batteries. At the beginning, only 32 batteries were used, but it was found that it was not enough because his villa consumes more electricity. At present, many systems on the market have reduced the battery capacity for low prices, using only a few batteries and solar panels, but they cannot meet the ...
