Who are Sky Energy?

Sky Energy are CEC Accredited Solar Installers and Approved Solar Retailers. Our team consists of experienced Master Electricians who specialize in all aspects of solar systems, from SkyBox to large commercial installations. Want to know how Sky Energy's SkyBox can benefit your construction project?

How many kWh does a SkyBox use in a week?

The installation includes a 27kWh battery capacity SkyBox and 16.2kWh of solar panels to meet the energy demand. This equates to 360 kWh of renewable energy use each week for the system. A 24kVA backup generator is also included for adverse weather conditions and high power spikes.

Where are SkyBox products manufactured?

All SkyBox models/products are manufactured in Keysborough, Victoria by our team of highly skilled electricians and engineers. They are covered by a massive 10-year warranty and backed by our award-winning SkyCare™ program/team at Sky Energy.

Can a SkyBox be connected to a generator?

SkyBox can connect multiple sources of power including solar, wind, hydro, and generator. With an inlet to connect a generator on the side of the cabinet, a generator can be connected to a SkyBox. SkyBox is easily scalable in its battery capacity, giving SkyBox owners the flexibility to meet higher energy needs in the future. SkyBox can connect multiple sources of power including solar, wind, hydro, and generator.

What is SkyCare™?

SkyCare™ is a dedicated phone support team and experienced crew of technicians who can assist if any problems arise with Sky Energy's SkyBox. If an issue cannot be resolved over the phone, the technicians will attend the site, sort the problem manually, and help the project move forward without additional cost.
