

Slovenia arex holding

What is AREX defense?

AREX DEFENSE is a nationally strong position holder in the field of national defense and police. It also functions as a Centre of Excellence for educational programs in machining and production work, educating the best machine workers and production specialists. Approximately 50% of their manufactured products are for third-party defense companies.

Why should you choose AREX defense?

With its understated beauty, Slovenia reveals a highly skilled workforce that fuels Arex Defense's expertise. For over 27 years, this local Slovenian company has harnessed the specialized knowledge and expertise of its workforce, establishing a reputation for excellent quality and becoming a preferred supplier to the Slovenian government.

What makes AREX defense training ammunition unique?

One standout feature of Arex Defense's training ammunition is its long-lasting color. Differentiating from the competition, Arex Defense has developed a unique formulation that ensures their colored ammunition retains its vividness even after prolonged storage, providing a distinct competitive advantage.

What products does AREX offer?

Their range of textile products, including helmets, specialized backpacks, and bulletproof vests for special forces, demonstrates their commitment to providing comprehensive solutions for the defense industry. Arex specialized backpack.

Does AREX defense have a long shelf life?

The long shelf life of Arex Defense's training ammunition is a significant benefit, as it eliminates concerns about the colors drying out or losing their effectiveness over time. This guarantees accurate marking of impact points during training sessions, allowing trainees to assess their performance with precision.
