

Solar batterie haus Kenya

What is the best solar battery in Kenya?

The best solar battery in Kenya is definitely a deep cycle battery. Deep cycle solar batteries can be categorized into two; lithium ion batteries and lead acid deep cycle batteries. Lead acid batteries have been around for a really long time. They are the batteries used in cars. Deep cycle lead batteries are specifically used in solar systems.

Are solar battery prices in Kenya worth it?

Solar batteries prices in Kenya is a major consideration for many people when looking to invest in a solar battery. Low prices are attractive for many, but if the low price comes at the expense of battery life and quality then it is not worth it.

Original price was: KSh21,250.00.

How does deep cycle technology affect solar battery prices in Kenya?

Deep cycle technology allows a solar battery to be discharged slowly over a long period of time until it has nothing left to give and then recharge and be ready for use again. The deep cycle technology affects not only performance of the solar batteries but also the solar battery prices in Kenya.

Are deep cycle lead acid solar batteries cheaper in Kenya?

Deep cycle lead acid solar batteries for sale in Kenya cost more than the car lead acid batteries do. However, they are more affordable than solar lithium ion batteries. The lead acid batteries for solar are valve regulated lead acid batteries (VLRA) meaning they come sealed so gases from the reactions cannot escape.

What is the capacity of a solar battery?

The capacity of the solar battery is the total amount of electricity that the battery can store. It is usually measured in kilowatt hours - kWh. If you bought a smaller battery or your power needs have increased, you can stack more batteries to increase the capacity.
