

# Solar container index and solar container industry index

What is the World Container Index?

The World Container Index is the go-to, independent, global reference for index-linked contracts. If your organisation is considering index-linked contracts or requires regional visibility/coverage beyond the eight trade lanes, contact our ocean freight cost benchmarking team.

How did Drewry's World container index perform in 2025?

On 21 Aug 2025, Drewry's World Container Index decreased 4% to \$2,250 per 40ft container. We successfully leveraged their industry knowledge in our annual ocean carrier contract negotiations and continue to do so when evaluating changes to our organization's sourcing strategies.

Why did Drewry's World container index (WCI) fall?

Drewry's World Container Index (WCI) has been falling for the tenth consecutive week. The decline comes after a period of volatility, which began when US tariffs were announced in April, causing rates to surge from May through early June.

The latest Drewry World Container Index (WCI), released on March 27, 2025, reveals a continued decrease in global container freight rates, reflecting ongoing adjustments within the ...

Cek tarif pengiriman container jakarta medan belawan 20 feet dan support container ukuran 40 feet, Pengiriman container memberikan tarif yang lebih kompetitif. Hubungi tim marketing untuk info lebih ...

The STOXX Global Solar Energy Index is comprised of companies with significant exposure to the Solar energy distribution and related manufacturing industry through direct revenue.

The residential segment continues to dominate the market, while the industrial segment is witnessing the fastest growth due to increased energy demands. Rising demand for renewable energy solutions and ...

Discover the principles and potential of solar containers in shaping a sustainable energy future with efficient storage solutions.

The Global Solar Container Market is segmented into Portable, Fixed, and Hybrid Solar Containers, each catering to diverse energy needs and applications. Portable Solar Containers are gaining ...

Solar Container Market Outlook A Solar Container is a portable and self-sufficient energy solution designed to harness solar power for various applications.

Discover how mobile solar containers deliver efficient, off-grid power with real-world data, innovations, and

case studies like the LZY-MSC1 ...

The global solar container market is expected to grow from USD 0.29 billion in 2025 to USD 0.83 million by 2030, at a CAGR of 23.8% during the forecast period. ...

Historically, Containerized Freight Index reached an all time high of 5109.60 in January of 2022. This page includes a chart with historical data for Containerized Freight Index. Containerized Freight Index ...

The report includes fundamental, secondary, and advanced information about the Solar Container Power Generation Systems Market's worldwide status and trend, market size, share, ...

Explore LZY Containers's customizable and scalable solar container solutions, with rapidly deployable folding PV panels combined with containerized designs. ...
