In Trinidad and Tobago and the wider Caribbean there is an abundance of natural energy from the sun. In Trinidad and Tobago a typical day can be insolated for 5-6 hours of sunlight. This makes the Solar photovoltaic (PV) systems very applicable for Trinidad and Tobago. The cost for these systems are constantly coming down.

AMBA Energy Limited can design a system to suite your application. While Solar PV is readily available in Trinidad and Tobago, irradiated heat is also available in abundance. To supplement solar PV which uses the sunlight to produce electricity, we also provide solutions which capture the Sun's heat and convert it to electrical energy.

Why Choose Us? Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book.
