

French renewable energy company Voltalia has completed the expansion of a renewable energy plant in French Guiana, adding a battery energy storage system (BESS) of 10.6MWh. The Paris-listed company announced ...

Voltalia has recently announced the commissioning of its Sable Blanc power plant combining solar photovoltaic production and battery energy storage in French Guiana. Developed entirely by the company, the hybrid ...

Renewable power plants operator Voltalia SA on Thursday announced the commissioning of its 5-MW Parc Sable Blanc solar farm with an integrated storage system in French Guiana. The Paris-based company ...

French renewable power producer Voltalia SA (EPA:VL TSA) has started the construction works on a 5-MW solar farm combined with a 10.6-MWh lithium-ion battery storage unit in French Guiana. Named Sable Blanc, the photovoltaic (PV) plant should be able to generate 7,430 MWh annually, enough to meet the electrical demands of 3,090 people in Western ...

Renewable power plants operator Voltalia SA (EPA:VL TSA) on Thursday announced the commissioning of its 5-MW Parc Sable Blanc solar farm with an integrated storage system in French Guiana. The Paris-based company secured the project in a government tender for solar projects in non-interconnected zones (ZNIs) in May 2021.

CEOG is an innovative multi-megawatt power plant designed to produce reliable and clean electricity. CEOG will provide cheaper and firm power all year long, day and night, to 10 000 homes in Western Guiana. Combining a photovoltaic plant and mass storage of energy in the form of hydrogen, CEOG is the alternative to a classic diesel power plant.

Voltalia has recently announced the commissioning of its Sable Blanc power plant combining solar photovoltaic production and battery energy storage in French Guiana. Developed entirely by the company, the hybrid project is claimed to benefit from a guaranteed sales price for 20 years.

CEOG is an innovative multi-megawatt power plant designed to produce reliable and clean electricity. CEOG will provide cheaper and firm power all year long, day and night, to 10 000 homes in Western Guiana. Combining a photovoltaic ...

French energy minister Ségolène Royal has signed a decree establishing an energy programme (PPE) for French Guiana, that aims to use solar, biomass and hydro to reach 85% renewables...

Solar powered solutions French Guiana

French renewable energy company Voltalia has completed the expansion of a renewable energy plant in French Guiana, adding a battery energy storage system (BESS) of 10.6MWh. The Paris-listed company announced the commissioning of the Sable Blanc solar-plus-storage project yesterday (10 May).

In French Guiana, EDF now has eight solar facilities in service, including three that are equipped with battery storage systems. It represents close to 20 MW in total capacity.

This new power plant represents another step forward for the energy transition underway in the territory and will help French Guiana meet its goal of energy self-sufficiency by 2030. The installation will also bring EDF closer to its Solar Plan's objectives of making it one of France's leading players of solar energy with a 30% market share by ...

Renewable power plants operator Voltalia SA on Thursday announced the commissioning of its 5-MW Parc Sable Blanc solar farm with an integrated storage system in French Guiana. The Paris-based company secured the project in a government tender for solar projects in non-interconnected zones (ZNIs) in May 2021 .

Albioma is the leading producer of photovoltaic energy in Overseas France. We are in French Guiana since 2010, developing innovative solar power projects that are increasing the share of renewable energy available in the region.
