The in-house team have the skills and experience to design, install and maintain solar PV systems as well as advise and implement supporting technologies like EV charging and Battery Storage. With a system spec to suit every home and almost every budget, solar is the go-to alternative energy solution with quick results and long-term benefits.

If your home or business has a high electrical demand then you will find your return on investment much quicker. Batteries are an ideal way of capturing all the energy produced by the solar and stored electricity can be used throughout the night. The average domestic solar PV system is 4kWp and costs £5,000 - 8,000 (including GST at 5 per cent).

List of Channel Island solar panel installers - showing companies in Jersey that undertake solar panel installation, including rooftop and standalone solar systems.

Produce your own energy, save money & reduce your carbon footprint with Sunworks - Jersey's first dedicated energy optimisation provider. With over 550 local solar installations we are the trusted choice for homeowners and businesses wanting to invest in the future.

Retrofitting Solar to Your Existing Roof. SunWorks offer a select range of specialist solar products which can be selected for almost any roof type. Our solar panels come from reputable brands, featuring robust warranties that extend up to 25 years.

Harness the energy from our own domestic solar installation to power your home's appliances and heat your hot water with our unique Smart Solar offer, when switching to electric heating. Jersey's Rooftop Revolution
