

Solar system price in bihar Palestine

How to avail rooftop solar subsidy in Bihar?

Also, to avail the rooftop solar subsidy in Bihar, the rooftop solar system should be a minimum of 1kW in size. Solar Panels: Solar panels are the heart of any solar system. These panels are made up of photovoltaic cells that convert sunlight into electricity.

Why is net metering important for solar subsidies in Bihar?

Net metering is important for solar subsidies in Bihar because it helps more people use clean energy. With net metering, solar panel owners can sell extra electricity back to the DISCOM and earn money. This encourages more people to choose solar power, which is good for the economy. To apply for a net meter in Bihar, follow these simple steps: 1.

How much solar energy does India receive?

India receives solar energy in the region of 5 to 7 kWh/m²/day for 300 to 330 sunny days. This energy is sufficient to set up 20 MW of solar power plant per square kilometre of land area. Type of Solar Energy: Solar energy can be used through two different routes namely, Solar Thermal Energy and Solar Photo Voltaic Energy.

How much is solar subsidy in India?

45% of benchmark cost for capacity of 4 kWp to 10 kWp. Both central and state offers the solar subsidy, for the general category states the central government pay 30% amount for the total as a subsidy. But for special states like Himachal Pradesh, Uttarakhand, Sikkim, J&K and Lakshadweep the central government pays the 70% subsidy amount.

How to get a net meter in Bihar?

To apply for a net meter in Bihar, follow these simple steps: 1. Go to BREDA (Bihar Renewable Energy Development Agency) website for applying net meter. 2. Fill the form for net meter. 3. Then submit the form. 4. Now, you have to wait for the approval. 5. After you get approved then you have to submit the required documents and payment.
