

Solar systems in St Vincent and Grenadines

The Caribbean Development Bank has approved financing of \$8.6 million for solar energy development on St Vincent and the Grenadines. The financing to St Vincent Electricity Services Ltd (Vinlec) is for the supply and installation of solar photovoltaic (PV) systems at company buildings in the vicinity of the Argyle International Airport.

The Commissioning of the Union Island Solar PV and Battery Energy Storage System on Monday 25th March 2019 has been hailed as a significant milestone in the energy sector of Saint Vincent and the Grenadines.

The Caribbean Development Bank is supporting St. Vincent and the Grenadines" push to expand and increase its range of renewable energy options through a planned solar energy project.

The Mayreau Microgrid Solar Project is in its final stage, which is the testing and commissioning of the solar photovoltaic (PV) and Battery Storage system. St. Vincent Electricity Services Limited (VINLEC) and the Rocky Mountain Institute - Carbon War Room (RMI-CWR) partnered on this initiative which introduced renewable energy for electricity ...

Welcome to Solife Solar, your local one stop shop for all your solar needs. We have been providing various commercial and residential solar solutions to the region since 2011. Our smart solution system will help to zero your bill and ...

Welcome to Solife Solar, your local one stop shop for all your solar needs. We have been providing various commercial and residential solar solutions to the region since 2011. Our smart solution system will help to zero your bill and save you thousands of dollars for years to come.

A photovoltaic system will be added to the generation mix on Union Island in keeping with a mandate by the Government of St Vincent and the Grenadines (SVG) and St Vincent Electricity Services Limited (VINLEC) to increase the penetration of renewable energy in the production of electricity.

Renewable energy system used to supply electricity needs: oSmall solar electric systems oMicro-hydropower systems oSmall hybrid electric systems (solar and wind). oSmall wind electric systems oGeothermal Friday, April 24, 2015 Micro-Generation - on VINLEC Network 7
