Why did Solarity choose a new manufacturer?

Due to the huge demand for residential hybrid inverters, Solarity considered adding a new manufacturer to its portfolio. After much research and analyses of local market requirements, a decision was made. The following criteria were taken into consideration: Product price Continuous availability Compatibility with different

Who is Canadian Solar?

Canadian Solar was one of the first companies to introduce PV cell and module technologies that later became the industry mainstream, such as bifacial modules (back in 2010), modules with larger-format wafers (up to 210 mm) and, nowadays, N-type high-efficiency cells and modules. Since 2019,

Solarity is a distributor and solutions provider of photovoltaic (PV) systems. The company offers a complete assortment of both on-grid and off-grid solutions, including modules, inverters, ...

4 continents, 30 global suppliers, and more than 1GW of material delivered. This is Solarity - a distributor of photovoltaic systems with over a decade of experience. Our portfolio includes panels, inverters, mounting systems, storage systems, EV chargers and PV accessories.
