

Soltec company Oman

Who is Soltec?

At Soltec we are specialists in photovoltaic projects equipped with solar trackers, striving on a daily basis to build a future free of polluting emissions. Soltec was founded with the aim to create a clean, sustainable and fair world based on efficient photovoltaic power generation.

Why should you choose Soltec?

Soltec was founded with the aim to create a clean, sustainable and fair world based on efficient photovoltaic power generation. To achieve this, we focus on leading the global photovoltaic energy market and offering reliable solutions based on our cutting-edge technology.

Why is Soltec a sustainable company?

Soltec's activity, sustainable since its conception in 2004, has a firm purpose: to create a clean, sustainable and fair world through energy. How simple actions can make a difference and contribute to a more sustainable and environmentally responsible future. This is how we do it at Soltec.

How does Soltec make the most of solar energy?

We innovate every day to make the most of solar energy. Soltec pioneered the introduction, development and commercialization of solar tracking technologies, as well as the integration of solar plants through the use of algorithms and wireless communication systems.

What is Soltec Foundation?

In 2022, we launched Soltec Foundation with the aim to promote, support and develop initiatives of a social, cultural, educational, environmental, entrepreneurial and technological nature, with the purpose of promoting sustainable renewable power sources, especially photovoltaic energy. +EUR128,000 for donations and sponsorships

What is Soltec's business model?

Aware that economic growth depends on technological upgrade and innovation, Soltec is committed to a business model which prioritizes innovation as a key tool against climate change, as well as to ensuring decent, free and equal work conditions throughout the world.

Soltec, a Spanish company that specialises in vertically integrated solutions for the photovoltaic sector of solar energy, has brought its latest addition to Middle East markets, SFOne, which is an innovative tracker.

Soltec was founded with the aim to create a clean, sustainable and fair world based on efficient photovoltaic power generation. To achieve this, we focus on leading the global photovoltaic energy market and offering reliable solutions based on our cutting-edge technology.
