Who is Powerstar - a d2zero company?

Managing your power with our Transformers, Battery Energy Storage Systems, Voltage Optimisation & AI Microgrid Controller (EOS) Powerstar - A D2Zero company. Smart energy solutions to achieve your commercial energy objectives. We understand the energy challenges encountered by businesses.

How does Powerstar drive the energy transition?

At Powerstar, we drive the energy transition by delivering end-to-end electrification solutions.

Is Powerstar adapting to the future?

At Powerstar, we're not just adapting to the future; we're actively shaping it alongside our broader group, D2Zero. Powerstar is proud to be part of D2Zero, a combination of five well established companies with deep expertise in providing engineering and operations support services for critical energy infrastructure.

What is a Powerstar ft truck?

The Powerstar FT Series offers a range of versatile light to medium trucks for applications such as water tanker, diesel tanker, tipper, dropside, drill rig, tautliner and more. Powerstar's range of VX trucks are built for rugged African conditions. Body types include Tippers, Water Tankers, Freight Carriers and Waste Compactors.

What makes Powerstar unique?

Powerstar is characterised by technical expertise, data-driven engineering, advanced modelling, and simulations for project success. We focus on a science-based approach, guiding clients through the intricacies of electrification.

Established in August 2010, Ever Star Industries (Pty) Ltd (ESI) is the sole distributor of Powerstar trucks, Powerstar FT Series trucks and Shantui and construction / mining equipment in the SADC region of sub-equatorial Africa.

Somalia has one of the highest potentials for renewable energy in sub-Saharan Africa. The country is endowed with shoreline wind power that can generate up to 45 gigawatts (GW) of electricity,...
