

Sunlife energy Timor-Leste

Why should Timor-Leste invest in Greater Sunrise?

The development of Greater Sunrise has the potential to deliver value to both the people of Timor-Leste and shareholders. The Sunrise development comprises the Sunrise and Troubadour gas and condensate fields, collectively known as Greater Sunrise.

Is there a market for roof-top solar energy systems in Timor-Leste?

Australia's Market Development Facility (MDF) and ITP Renewables conducted an assessment of the potential market for roof-top solar energy systems in Timor-Leste.

Does Timor-Leste have a demand for solar?

3 MDF survey on understanding demand for solar in Dili, Timor-Leste. Timor-Leste's rooftop PV solar industry is new and undeveloped. Limited availability of maintenance and spare parts inhibits some businesses from switching to solar.

What does a solar technician do in Timor-Leste?

Technicians in Timor-Leste have experience in small-scale, off-grid solar energy systems. Commercial or industrial scale installations are more complex and appropriate technical capacity is scarce.

Is Timor-Leste a good country for solar energy?

Timor-Leste has a high-quality solar resource. The global horizontal irradiance in Dili is higher than on the east coast of Australia, where the solar market is mature and installation costs are higher. The cost of electricity in Timor-Leste for commercial and industrial consumers is high compared to ASEAN countries.

How long does a solar system last in Timor-Leste?

High electricity costs and readily available solar radiation mean that the average payback period for a rooftop photovoltaic (PV) solar energy system in Timor-Leste is only 1.5 to 3 years instead of the global average of 6-10 years. Transitioning to solar can also help the country meet environmental commitments.

Sunlife energy Timor-Leste

Timor-Leste--what comes to mind when you hear the name? Perhaps the palm-lined beaches, or maybe the resilience of a nation that fought so hard for independence. But beneath the turquoise waters of the Timor Sea lies a story still unfolding--a story written in oil and ambition.

Sunlife Energy bietet maßgeschneiderte Photovoltaik-Lösungen für den Gewerbebereich, inklusive innovativer Dachverpackungs-Konzepte. Unsere Dienstleistungen umfassen Energiespeichersysteme, intelligentes Energiemanagement und Optimierung. Vertrauen Sie auf unsere hausinternen Experten für höchste Qualität und Zuverlässigkeit.

Timor-Leste's President, José Ramos-Horta, has announced that the \$74 billion Greater Sunrise gas project could begin within months, marking a significant milestone for the nation's energy sector. With decades of planning and negotiations now close to fruition, the project awaits only the signing of a treaty with Australia.

operators involved in the energy sector in Timor-Leste. The purpose of this report is to assist the government of Timor-Leste, in particular the office of the Secretary of State for Energy Policy, to develop policies in key areas that would guide planning of the subsequent phase of its ongoing rural energy programs. The selected key areas in

Timor-Leste holds a strategic advantage over its neighbours in transitioning to solar rooftops, with potential electricity cost reductions and a recovery period of 2.5 years, lower than regional ...

The Greater Sunrise project, harnessing significant natural gas and condensate reserves, will transform Timor-Leste's economy, generating up to USD 50 billion. It aims to boost local development through job creation, infrastructure, and technological innovation, while adhering to strict environmental standards.

The development of Greater Sunrise has the potential to deliver value to both the people of Timor-Leste and shareholders. The Sunrise development comprises the Sunrise and Troubadour gas and condensate fields, collectively known as ...

Timor-Leste has renewable energy sources, including hydro with a potential of 240 MW, solar with 120 MW, biomass with 6 MW, and wind with 5 MW [6]. Based on this renewable energy potential, it is ...
