The 450W Off Grid Solar Kit comes complete with all the essential cables, switches and an AGM battery. AGM Batteries are renowned for having a longer lifespan than traditional flooded lead acid batteries, with the added advantage of being spill proof and they also respond better to loading making them a good choice for running power inverters.

Sunshine is not one of those resources that is lacking in Jordan, however. This is why the government is hoping to make the most of the sun - specifically 330 days of sunshine per year. The solar energy potential is bright in Jordan.
