HubNet (Hub Networks Ltd) was established in the year 2014. We have built a strong reputation for offering exceptional goods and services in ICT, Construction, Agriculture and Transportation sectors at the most competitive prices in the market.

THN welcomes active physical or virtual hubs registered in Tanzania that support innovators and entrepreneurs from diverse backgrounds and sectors, contributing positively to their communities. Members must also adhere to the values and principles of the Network.

East Africa (Tanzania) hub Why hub in Tanzania? Located in East Africa, Tanzania provides great opportunities to develop inclusive sustainable energy - development models through its commitment towards poverty reduction, social protection and overall developmental agenda.

Hubs play a significant role in Tanzania's innovation ecosystem but they are far from being sustainable and realising their full potential. Hubs would benefit from closer networking and representatives have indicated their need for help to organise a Tanzanian hub network to enable stronger peer support mechanisms. Most of the learning
