

What are the 10 energy communities in Andorra?

This is another step towards the digitalisation of the area surrounding Andorra together with the development of 10 energy communities. These are Andorra, Híjar, Albalate del Arzobispo, Puebla de Híjar, Jatiel, Castelnou, Ejulve, Molinos, Alacón and Alcorisa.

How will Andorra become a green country?

Andorra will go from producing energy using coal, to generating clean energy with an installed capacity of 1,843.6 MW as a result of 7 hybridised renewable projects, 2 storage projects with batteries, a green hydrogen project and a synchronous compensator.

Where will agrovoltaic activities take place in Andorra?

There will also be agrovoltaic activity in the parks of Calanda, Santa María (in the municipality of Samper de Calanda) and San Macario (in the municipality of Andorra), which will enjoy the collaboration of Cierpe for the cultivation of cereals, and Natur Nature for aromatics.

What is the future of Andorra?

In the area around Andorra there will not only be industrial and rural activity, there is also a future project featuring the promotion of local commerce and tourism. Endesa was also looking to promote the tertiary sector as it is a key factor with regard to economic activity and employment in the area.

L'energia fotovoltaica guanya, a poc a poc, pes al país. Al llarg del 2023, els diferents projectes, tant d'àmbit privat com impulsats per la mateixa FEDA, com ara el parc solar de Grau Roig, han anat consolidant aquesta forma de producció.

El nou sistema, accessible des de la pàgina web de Medi Ambient i que renova l'eina digital actual, proporciona informació orientativa sobre el potencial energètic, la rendibilitat econòmica i els beneficis mediambientals d'hipotètiques instal·lacions d'energia solar fotovoltaica en les cobertes dels edificis del Principat d'Andorra.

The proposed project will combine wind, solar, battery energy storage and green hydrogen to help local industry decarbonise. It includes an option to expand the connection to 1,200MW. Endesa will build five solar plants and five wind plants supported by a battery energy storage system.

Not just 1, but 3 houses of Mr. Peter Sindong of Urdaneta City Pangasinan are now Solar powered! Thank you so much Sir for trusting TechnoGrid Solar in installing your solar panels and to take...

The renewable development proposed by Endesa for Andorra does not only involve the construction of new wind and solar capacity, but also the hybridisation of these projects and storage with two battery plants, which

Technogrid solar Andorra

makes them unique since they will make it possible to get the most out of these technologies, with higher quality and energy ...

The former energy production in a coal-fired thermal power plant will now be replaced by solar, wind, green hydrogen and storage projects, with a total installed capacity of more than 1,800 MW of new renewable capacity.

Sun on the roof, Power in your hands, Thank you so much Maam Catherine Villaflor for choosing TechnoGrid Solar. Did you know! Batteries are optional, they store excess energy for later use, providing...

Reviews from happy clients are the highest form of praise from us because that means we did our job so well that the clients trust us enough to become repeat customers. Nearly all of them recommended us to their friends and family. It was a joy and pleasure that Mr & Mrs McGarity from Binalonan, Pangasinan trust us (TechnoGrid Solar) to be their solar installer.

Andorra, compromesa amb l'energia solar. Més de 300 dies de sol l'any, el que es tradueix en més de 2000 hores en què podem gaudir de l'energia solar a Andorra. Més enllà, ens permet una producció nacional i reduir la dependència de l'exterior.
